

9.4.1 **Service Charges.** A service charge shall be paid by each customer for each billing period during which a service connection or allocation exists. Such charge for any billing period in which such a connection has existed for less than the whole of such period shall be prorated. Such charge shall not entitle the customer to any quantity of water and is in addition to the charges set forth in subsections 9.3.1, 9.3.2, and 9.3.3. The service charge shall be based on the meter manufacturer's recommended maximum flow capacity and the service rate type. The service charge for service shall be as set forth in the rate schedule in subsection 9.4.2. Service connections exist on the date of approval of the Application for Service. Service charges are billed on the date that service connections exist.
