

**SEE FOR YOURSELF
HOW EASY IT IS
TO USE DRIVECMS!**

Click [here](#) for a preview of how the system works, or contact Lisa Ramos at lisa@sostreassoc.com or call 1.800.605.4914 x81 to receive a URL for a **FREE demo**. No meeting is required. All we need is your e-mail address and company name, and we will send you the link along with a user name and password to access the system.

DriveCMS

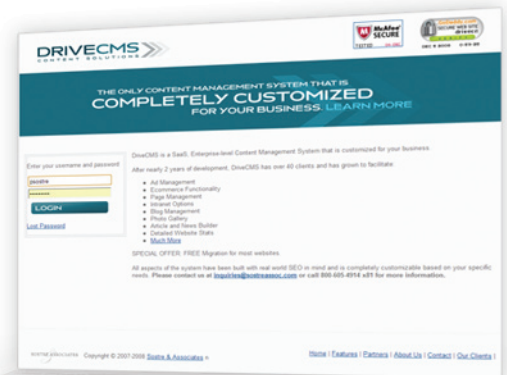

A unique, customized & easy-to-use content management system

In today's competitive marketplace, one of the keys to a successful and high-ranking website is to keep your content fresh and relevant. And the simplest way to do this is through a content management system (CMS), which allows you and your team to quickly and easily update your site's content, upload new photos and videos, and create new web pages. Having a CMS means that you'll never have to waste time again waiting for your web company to make changes to your site . . . and you'll save thousands of dollars on webmaster fees!

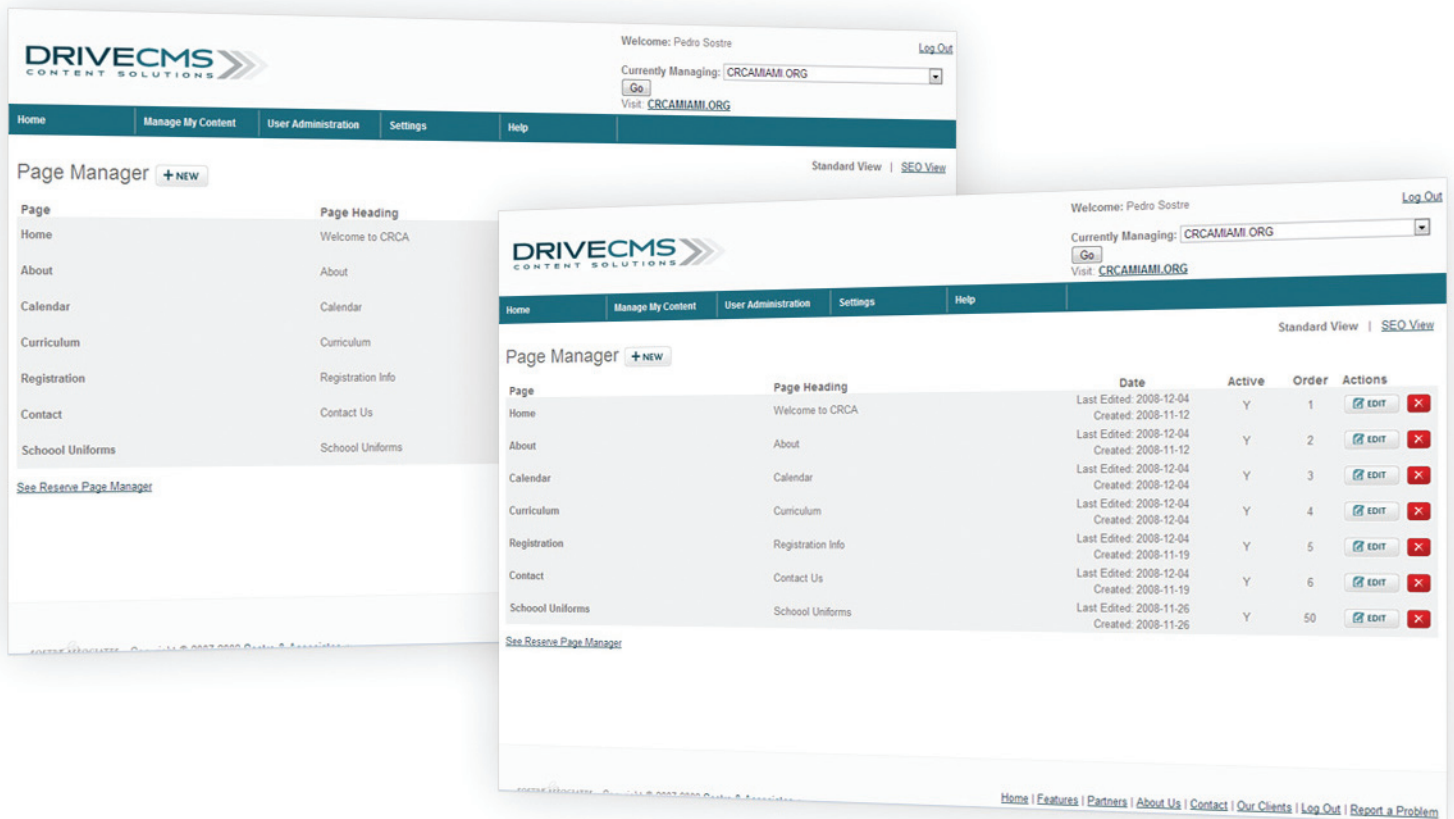

At Sostre, we've developed an affordable, easy-to-use enterprise-level solution called *DriveCMS*. *DriveCMS* is customized for your specific business and web site goals. Best of all, every aspect of the system is built with real world search engine optimization (SEO) in mind.

Here are just a few things you can do using *DriveCMS*:

- Easily edit and optimize website pages
- Create featured news stories and articles
- Activate and deactivate web pages in seconds
- Add, delete and edit content
- Upload images, video, audio files, word docs, PDF & SWF files
- Build polls & surveys
- Create photo galleries and slide shows
- Build a calendar of events with automatic expiration feature
- Sell products using e-commerce and shopping cart functionality
- Promote events and take registrations
- Utilize web analytics and tracking
- Blog
- & more!

A unique, customized & easy-to-use content management system: Add pages instantly, edit pages easily!

Because *DriveCMS* is a paid software-as-a-service (SaaS) application, you won't end up using outdated software or paying for costly software upgrades . . . and you'll always have immediate access to the latest innovations as they are released. Additionally, tech support is available on-demand. This sort of support is not possible when using some of today's open-source CMS solutions.
