

Hot days just got **cooler** with
 Income-Qualified, Subsidized
 Whole House Retrofit and ***FREE**
 3.5 kW Photovoltaic Solar System

“Solar For All California” is a grant program offered through the California Department of Community Services and Development.

Sonoma County Energy Independence, in collaboration with **North Coast Energy Services**, is seeking interested **homeowners** who would like to achieve Energy Independence, but who have not yet financed their own system in the current economy. Income qualified individuals may be selected to receive a free solar installation at their home.

The State of California is providing **50 Income Qualified FREE Weatherization** and 3.5 kW Grid-tied **Solar Power Systems**, including equipment and installation through North Coast Energy Services.

As Sonoma County is committed to access to clean energy generation for all of its residents, the staff of the Sonoma County Energy Independence Program will assist candidates through the application process for **“Solar For All California”** and other weatherization programs available to income qualified residents.

If you are interested in this program, and meet the income guidelines below, visit www.sonomacountyenergy.org, call (707) 521-6200 for more details, or stop by our Storefront at 404 Aviation Blvd, Santa Rosa.

Income Guideline CSD LIHEAP 2010

# Residents/HH	Annual Income	Monthly Income
1	\$29,272	\$2,431
2	\$38,148	\$3,179
3	\$47,124	\$3,927
4	\$56,112	\$4,676
5	\$65,076	\$5,423
6	\$74,052	\$6,171

\$748/month for each additional person in the household

Monthly Income represents the TOTAL amount of GROSS INCOME for ALL ADULTS in the Property Owner’s HOUSEHOLD for the month the application is being submitted.

(Program Qualification depends upon INCOME, and does not consider assets).

Residents per Household represents ALL members of the Property Owner’s Household.

***For Qualified, Eligible Applicants**

“Solar for All California” and Weatherization Program Requirements

Applicants must meet income guidelines

Roof must be in GOOD REPAIR

Property must have “solar access” (free of trees around roof)

Roof must be pitched

Property owner authorization required

“Solar for All California” is available outside Sonoma County

- Homes that are drafty with high heating & cooling bills will receive maximum weatherization implementations.
- Mobile or manufactured homes will not qualify

FREE Weatherization *Includes**:

Free Energy Assessment

“Weatherization” typically saves \$437 annually in heating & cooling bills.

Weather-strip, caulk, insulate attics & floor, crawlspaces, ducts & water heaters

Windows & Doors

Shade screens, interior storm windows, replacement windows & doors.

Appliance, Equipment & HVAC replacement can save an additional \$130 each year. Refrigerator (pre-1992), microwave, heating systems (inoperable), cooling systems (inefficient), water heater, timers, lighting, exterior lights, low-flow shower heads and faucet aerators.

Weatherization packages can be valued at up to **\$6,500** per house and can save 2.65 Metric Tons of CO₂ for the life of the weatherization.

*Eligible measures identified with Free Energy Assessment. Only program eligible measures will be installed on a case-by-case basis.

SCEIP Financing Information

For improvements beyond those provided above, financing is available to property owners for eligible Energy & Water Efficiency Measures through SCEIP. These improvements must be permanently attached to the property. Financing is provided at 7% interest and repaid through property taxes. **Eligibility requirements include:**

- Current on Taxes
- Current on Mortgage
- Not in Bankruptcy
- No Involuntary Liens
- Lien to Mortgage Value cannot exceed 100%
