Re: Planned Shut Down

Dear Casitas Customer:

Please be informed that Casitas Municipal Water District will be performing their mandated triennial internal inspection of the Casitas Dam Intake Structure. This will necessitate a 12 hour shutdown of Casitas Dam to complete the required inspection. Thank you for your patience; a few inconveniences now will assure the long-term reliability of future water service to your community.

On Thursday, April 26, 2018, Casitas Municipal Water District will be unable to replenish any water used by our customers. We are asking our large users throughout the water distribution system to **restrict use from 6:00 a.m. until 6:00 p.m. on Thursday, April 26, 2018.** Casitas will have reservoirs filled prior to the planned shutdown and the majority of our customers will not be affected.

Please restrict all outdoor irrigation activities.

Non-compliant customers will have their service turned off for the duration.

The restricted water resources available during the scheduled maintenance activities can adequately meet domestic and fire flow demands if all irrigation activities are curtailed. Casitas appreciates your efforts during this difficult period. If you have any questions or need further information regarding our activities, please contact Caron Smith at (805) 649-2251 ext. 115.

Your patience and consideration are greatly appreciated.
